

"Tactical Firearm Handling"

This 1.5-day (16 hours) officer survival program is a series of tactical enhancement seminars designed for agencies to update, train and provide critical lifesaving information for situations where the officer must tactically handle their firearm and **must draw their**

firearm and actively engage threat(s) while seriously injured; either by having one or more fingers broken, limbs disabled, vision impaired and is alone. Enforcing contact firearm safety, movement and cover principals, spontaneous lethal force encounters and ambushes. This course will also address magazine handling, weapon transition skills, officer rescue tactics, strong and off-hand handling skills and immediate action to a gunfight. Instruction is based on realistic use and applications of control methods in the use of force situations. This class will conduct dry fire drills, training projectiles (Air Soft) simulations, and live fire exercises.

Topics covered in the program include:

- How to safely handle firearm and simulate broken or injured;
 - o Hands
 - o Fingers
 - o Arms
- How to safely handle firearms with impaired or blinded vision
- How to safely handle firearms from physically hindered positions
- Firearm manipulation exercises to control firearms under high levels of stress
