

Cell Extraction & Control Systems **Instructor Course**

This 4.5-day (40 hours) agency instructor level certification program designed for agencies to train and certify departmental instructors in Cell Extraction and Control Systems for corrections. This course is designed to enhance the instructor's development in the use and training of control tactics for single and multiple officer control tactics using anatomically correct techniques, and to protect

departments from costly litigation issues that could arise from the use of physical force during an encounter. This course fully addresses all aspects of physical restraints, and introduces "Pad Subduing Techniques and Tactics." Instruction is based on realistic use and applications of control methods in the use of force situations. **This is a physically demanding program! Students are issued 3 BASIC INSTRUCTOR certifications – Chemical Aerosol Projectors, Protective Mask and Cell Extraction Control Systems**

Topics covered in the program include:

- Equipment and gear selection
- The purpose of force cell moves
- Pre-screening personnel
- Entry drills for 3 to 5 person teams
- How to establish cell extraction teams
- Use of shield tactics
- Contingency planning and operations
- Use of restraints & control devices
- Importance crisis management teams
- Support personnel and squads
- Purpose and use of the protective mask
- Selection & deployment of chemicals
- Baton deployment and selection criteria
- Integrated use of force options
- Ground stabilization tactics
- Documentation & medical issues
