

Chemical Aerosol Projectiles

CAP™

Basic Instructor Course

This 1-day (10 hours) agency Basic Instructor level certification program is designed for agencies to train and certify departmental Instructors in a complete use of force continuum program focusing on, handling and documentation of the use of Chemical Aerosols, to include medical issues and legal liability specifically designed for law enforcement, and corrections. It introduces new partner drills for the safe and effective deployment of these devices that are compatible with any chemical aerosol deployment system. **Learn how to decontaminate in 4 minutes or less WITHOUT any special cream, lotions or false promises! Ask about our new on line programs with NWTC, and save about \$500.00.**

Topics covered in the program include:

- Oleoresin capsicum formulations / carriers
- Projectors / propellants / delivery systems
- Effectiveness / safety / liability factors
- Criteria for selection
- Operational guidelines / practical exercises
- Decontamination / first aid
- Officer survival techniques
- Criminal and civil liabilities
- Sample policy and procedures
- Instructor development
- Integrated use of force options
- Deployment methods
- Tactics for surviving an OC attack
- Contamination exercises

Dave Young is recognized as one of the nation's leading experts in the use, selection and deployment of non lethal weapons and has hosted the Police Technology Show for National Geographic. This is one of the longest running OC programs in the country!

Duration: 1 Day

Tuition: \$199.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.
