

## Master Chemical Aerosol Projector Course

This 2.5-day (24 hours) agency Master Instructor level certification program is designed to train and certify departmental Instructor Trainers in a complete use of force continuum program focusing on deployment, handling and survival of a chemical attack by means of an aerosol designed specifically for law enforcement, and corrections. This course was designed to enhance the instructor trainer's development in the use and training of aerosols tactics, and to protect departments from costly litigation issues that could arise from these types of encounters. **Learn how to decontaminate in 4 minutes or less WITHOUT any special cream, lotions or false promises! Ask about our new on line programs with NWTC, and save about \$1,000.00 per officer.**

### Topics covered in the program include:

- Oleoresin capsicum formulations / carriers
- Projectors / propellants / delivery systems
- Effectiveness / safety / liability factors
- Criteria for selection
- Operational guidelines / practical exercises
- Decontamination / first aid
- Officer survival techniques
- Criminal and civil liabilities
- Sample policy and procedures
- Instructor development
- Integrated use of force options
- Deployment methods
- Tactics for surviving an OC attack
- Contamination exercises

Dave Young is recognized as one of the nation's leading experts in the use, selection and deployment of non lethal weapons and has hosted the Police Technology Show for National Geographic. This is one of the longest running OC programs in the country!
