

## Tactical Chemical Munitions Instructor

This 1.5-day (16 hours) program is designed for agencies to train and certify departmental instructors in Tactical Chemical Munitions and the Protective Masks needed to work inside contaminated environments for their agencies. This course was designed to enhance the agencies in the manufacture's use, and tactical applications of deploying chemical munitions by hand, using 12 gauge shotguns, 37/40 single or multiple shot launchers, or by hand. We will cover tactical applications for Patrol, SWAT and Crowd Management on the line for riot situations. **This is a certification on ANY Specialty Impact Munitions your agency carries.**

### Topics covered in the program include:

- History of Chemical Agents (OC-CS-CN-SM)
- Chemical Compositions
- Terminology of use and selection of agents
- Different classifications and effects of chemical agents
- 12 gauge deployment and other tactical strategies
- 37 MM and 40 MM Single Shot Launchers
- Hand Deployment - Launching – Angles of fire and deployment tactics
- Establishing an effective training program
- Protective Mask Selection
- Oxygen Deprivation and Vision Impairment Exercises
- Malfunction tactics for shotguns and launchers
- Deployment strategies
- Establishing qualification courses
- Policies and procedures

**Duration:** 1.5 Days
