

Course Descriptions

- **Specialized Programs**
- **Crowd Management – LE**
- **Crowd Management - CO**
- **Non-Lethal Weapons Programs**
- **RRB Programs**

RedMan “101” Instructor

The 3 day (24 hours) **RedMan® “101” Instructor Program** was designed for agencies to update departmental Instructors in the care, use and maintenance of the RedMan® Training Gear. This instructor program was designed to enhance the instructor’s knowledge in the combination and use of the RedMan® Instructor Suits, RedMan® Student Suits, the Disturbance Resolution Suits (DRS) made by Redman® Training Gear. This instructor program concentrates on using the RedMan® Training Gear in its full design. This allows the student to experience the full integration of the RedMan® Training Gear and Equipment. This will assist instructors on enhancing their own systems, which will improve their officer’s skills, enhancing their proficiency.

Learn why RedMan® Training Gear is the number 1# choice of protective gear for any type of training.

Topics covered in the program include:

- Equipment and gear selection
- The purpose of using RedMan Training Gear
- RedMan® XP Instructor and Student Suit Orientation Drills
- Movement, Falling, Blunt trauma Drills
- How to enhance visual and auditory aids for students
- Use of Safety Coaches
- How to protect the student and staff from unnecessary injuries
- Student Evaluation and documentation
- Enhanced configuration equipment
- Verbalization Tactics
- Power development
- How to Safely Use Training Props and other aids
- Weapons transitions
- Documentation & medical issues

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

RedMan Simulator Instructor

This 2-day (16 hours) course is a “sequel” to the RedMan® 101 Instructor course. It can be offered immediately following a RedMan® 101 class or as a stand-alone course. It focuses on instructor and scenario development issues and liability concerns when using the RedMan® Training Gear during defensive tactics training. Focusing on topics like safety coaches, practical exercises, dynamic moment, and force on target, instructor survival tactics, and scenario based training, weapon control and safety issued for using training firearms and projectiles, sanitation and health issued and much more! **Recommended you attend the Redman® 101 Instructor program!**

Topics covered in the program include:

- Acclimatization of the Weapons Defense Suit (WDS)
- The purpose of using Weapons Defense Training Gear
- RedMan WDS Instructor and Student Suit Orientation Drills
- Movement, Falling, Blunt trauma Drills
- How to enhance visual and auditory aids for students
- Enhanced configuration equipment
- Student Evaluation and documentation
- Multiple officer control drills
- Training with marking projectiles
- Using Less Lethal training munitions
- Weapons transitions
- Documentation & medical issues
- Safety Issues and concerns

Duration: 2 Days

Tuition: \$395.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Protective Gear “101” Instructor

The 3 day (24 hours) **Protective Gear “101” Instructor Program** was designed for agencies to update departmental Instructors in the care, use and maintenance of ANY Training Gear used by the agency.

This instructor program was designed to enhance the instructor’s development in the combination and use of the Instructor Suits, Student Suits, Striking Shield, Arm Guards, Focus Mitts used for preparing your officers for force on force encounters. This instructor program concentrates on getting the most out of your Training Gear in its full design. This allows the student to experience the full integration of the how physical encounters occur and how to take the hits inside your gear and limit the injuries that can occur without such training. This will assist instructors on enhancing their own systems, which will improve their officer’s skills, enhancing their proficiency.

Learn how to get the best use of your protective gear regardless of any type of training system you train in gear for any type of training.

Topics covered in the program include:

- Equipment and gear selection
- The purpose of using Arma Training Gear
- Instructor and Student Suit Orientation Drills
- Movement, Falling, Blunt trauma Drills
- How to enhance visual and auditory aids for students
- Use of Safety Coaches
- How to protect the student and staff from unnecessary injuries
- Student Evaluation and documentation
- Enhanced configuration equipment
- Verbalization Tactics
- Power development
- How to Safely Use Training Props and other aids
- Weapons transitions
- Documentation & medical issues

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Bring your own instructor and student suit you currently use. Other gear will be on hand for testing and evaluation. Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Protective Gear Simulator Instructor Development

This 2-day (16 hours) course is a “sequel” to the Protective Gear 101 Instructor course. It can be offered immediately following the 101 class or as a stand-alone course. It focuses on instructor and scenario development issues and liability concerns when using **ANY training suit** gear during defensive tactics training. Focusing on topics like safety coaches, practical exercises, dynamic moment, and force on target, instructor survival tactics, and scenario based training, weapon control and safety issued for using training firearms and projectiles, sanitation and health issued and much more! **Recommended student attend the Protective Gear 101 Instructor program!**

Topics covered in the program include:

- Acclimatization of suits
- The purpose of using various protection levels
- Instructor and Student Suit Orientation Drills
- Movement, Falling, Blunt trauma Drills
- How to enhance visual and auditory aids for students
- Enhanced configuration equipment
- Student Evaluation and documentation
- Multiple officer control drills
- Training with marking projectiles
- Using Less Lethal training munitions
- Weapons transitions
- Documentation & medical issues
- Safety Issues and concerns

Duration: 2 Days

Tuition: \$395.00

Equipment Required: Bring your own instructor and student suit you currently use. Other gear will be on hand for testing and evaluation. Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Empty Hand Control Instructor

This 5-day (40 hour) agency Defensive Tactics Instructor level certification program is of a series of programs offered by ARMA in this subject and is designed for agencies to update, train and certify departmental Instructors in Empty Hand Control Tactics for handling passive or combative subjects.

This course is designed to enhance the instructor's development in the combination and using verbalization techniques with physical alternatives, single and multiple officer control techniques, limb and hinge control methods. This course concentrates on use of anatomically correct techniques that allow for the natural movement of limbs without twisting and bending for control. Instruction is based on realistic use and applications of control methods in the use of force situations. For successful completion Instructor certifications are issued in empty Hand Control for Defensive Tactics.

Topics covered in the program include:

- Importance of laying the verbal foundation
- Passive Control tactics
- Intergraded force options with hand, elbows, knees and feet
- Zones of approach and escape
- Single and Multiple officer takedown and stabilization techniques
- Tactical Combinations for disengaging or engaging the subject
- Identifying the danger areas controlling the distance
- Grappling Positioning
- Intergraded use of force option with empty hands
- Handling close quarter attacks
- Ground positioning and stabilization tactics
- Documentation and use of force options
- Escapes from Grips and Grabs
- Countering Tactics for submission and other body holds
- Power Development for striking
- Body Conditioning
- And much more!

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Neck Compression Tactics Instructor

This 3-day (24 hour) agency level instructor certification program designed for agencies to update, train and certify officers in the safe and effective use of Neck Compression Tactics for situations when the officer is confronted with a deadly force encounter and other force options have failed or

are not readily available. This course is designed to enhance the instructor's development in the combination and using various methods of compression techniques to calm, restrain and control combative subjects when the use of other force options have failed and been exhausted. You will learn articulation; terminology needed to help explain these techniques and how to return to your agency and instructor your staff, administration, officers for in-service, and recruits for basic academies. This course concentrates on the danger issues regarding the use of these techniques, how to protect your firearm, face, and other important areas of your body to win when your life depends on it the most. Instruction is based on realistic use and applications of control methods in the use of force situations. For successful completion certification of completion is awarded in Neck Compression Tactics. All techniques are compatible with our ground and empty hand control instructor courses. **This is NOT a PPCT or LNVR Program and NONE of these techniques will be taught.**

Topics covered in the program include:

- Understanding the differences between controlling, compression vs. stoppage
- Knowing your definitions and understanding compression techniques
- Importance of accessing your threat level
- Intergraded force options with hand, clothing and legs
- Application methods from various angles
- Tactical Combinations for disengaging or engaging the subject
- Identifying the danger areas controlling circulation
- Control and Grappling Positioning
- Medical concerns for subject losing control
- How to avoid neck compression techniques
- Positioning of advantage for handling the combatant
- Documentation and use of force options
- Countering Tactics for submission and other body holds
- And much more!

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Basic Instructor Duration: 3 Days
Master Instructor- Duration: 5 Days

Tuition: \$425.00
Tuition: \$695.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Counter Combatives Training

This 3-day (24 hour) agency Defensive Tactics Instructor level certification program is designed for agencies to update, train and certify officers in Counter Tactics for handling Active Combatives. When you wear a firearm it changes everything – the way you stand, handle people and physically control them.

This course concentrates on the danger range of 1-3 feet from the threat, how to protect your firearm, face, and other important areas of your body to win against an active fighter. Instruction is based on realistic use and applications of control methods in the use of force situations. For successful completion certification of completion is awarded in Counter Combative's Training. All techniques are compatible with our ground and empty hand control instructor courses. **Learn from experienced instructors with real world experience in field applications.**

Topics covered in the program include:

- Importance of laying the verbal foundation
- Intergraded force options with hand, elbows, knees and feet
- Redirection and balance displacement techniques
- Tactical Combinations for disengaging or engaging the subject
- Identifying the danger areas controlling the distance
- Grappling Positioning
- Intergraded use of force option with empty hands
- Counters for the wrestler
- Positioning of advantage for handling the combatant
- Documentation and use of force options
- Escapes from Grips and Grabs
- Countering Tactics for submission and other body holds
- Power Development for striking
- Body Conditioning
- And much more!

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Counter Combatives Instructor

This 5-day (40 hour) agency Defensive Tactics Instructor level certification program is the first of 5 training programs and designed for agencies to update, train and certify departmental Instructors in Counter Tactics for handling Active Combative's. This course is designed to enhance the instructor's development in the combination and using

verbalization techniques with physical alternatives, and adding close quarter grappling tactics. When you wear a firearm it changes everything – the way you stand, handle people and physically control them. This course concentrates the danger range of 1-3 feet from the threat, how to protect your firearm, face, and other important areas of your body to win against an active fighter. Instruction is based on realistic use and applications of control methods in the use of force situations. For successful completion certification of completion is awarded in Counter Combative's Instructor certificate. All techniques are compatible with our ground and empty hand control instructor courses. **Learn from experienced instructors with real world experience in field applications.**

Topics covered in the program include:

- Importance of laying the verbal foundation
- Intergraded force options with hand, elbows, knees and feet
- Redirection and balance displacement techniques
- Tactical Combinations for disengaging or engaging the subject
- Identifying the danger areas controlling the distance
- Grappling Positioning
- Intergraded use of force option with empty hands
- Counters for the wrestler
- Positioning of advantage for handling the combatant
- Documentation and use of force options
- Escapes from Grips and Grabs
- Countering Tactics for submission and other body holds
- Power Development for striking
- Body Conditioning
- And much more!

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Intermediate Use Force of Trainer

This 5-day (40 hour) agency Defensive Tactics Instructor level certification program is designed for agencies to update, train and certify departmental instructors in Transitional Tactics for Control and Arrest techniques using your intermediate weapons. This course is designed to enhance the instructor's development in the combination and use of aerosols, batons and empty hand tactics and electrical devices. This course concentrates on use of anatomically correct techniques that allow for the natural movement of limbs without twisting and bending for control. Instruction is based on realistic use and applications of control methods in the use of force situations. For successful completion Instructor certifications are issued in Defensive Tactics, Chemical Aerosol Projectors, and Impact Weapons. **Learn from experienced instructors with real world experience in field applications.**

Topics covered in the program include:

- Importance of laying the verbal foundation
- Ground stabilization tactics
- Intergraded force options with aerosols and empty hands
- Zones of approach and escape
- Standard & tactical handcuffing techniques
- Dynamic empty hand defense tactics
- Identifying the danger areas when applying handcuffs
- Intergraded use of force options
- Applications of flex-cuffs, other restraint devices
- Close quarter and stun tactics
- Ground stabilization tactics
- Documentation and use of force options
- Takedown techniques for single and multiple officer applications
- Empty hand and baton escorts & come along techniques
- Integrated use of force options
- With batons and empty hands
- Introduce the "tactical prone" & individual officer responsibilities

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Ground Defense Survival

This 3-day (24 hour) agency “Basic Instructor,” level certification program was developed to upgrade agencies desiring to train and certify departmental instructors in the use of techniques and tactics for unique, but commonly occurring encounters on the ground. This course lays the foundation for ground encounters, and shows the need for commonality between standing and ground defense training. Learn force options when taken to the ground by novice or experienced fighters. **Learn from experienced instructors with real world experience in field applications.**

Topics covered in the program include:

- 3 safety zones in ground encounters
- Proper falling techniques
- Understanding body mechanics for limb control techniques
- Weapon transition skills
- Transition between standing, kneeling, and ground positions
- Escaping & Rest Techniques
- Weapon control from a ground fighting position
- Controlling the distance and movement
- Impact weapon & firearm deployment from the ground
- Disarming tactics for edged weapons
- Zones of approach and escapes from the ground
- Grip and hold techniques
- Weapon retention in and out of the holster
- Integrated use of force options
- Escapes from chokes, grip and garbs
- Establishing an effective DT program

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Ground Defense Survival Instructor

This 5-day (40 hour) agency “Advanced Instructor,” level certification program either builds on the basic program or stands alone to develop Defensive Tactics Instructors to upgrade their skills in the use of techniques and tactics for unique, but commonly occurring encounters on the ground.

This course will cover integrated use of force skills that develop rapidly in a ground encounter and prepare the officer for being confronted with novice or skilled fighters. **Learn from experienced instructors with real world experience in field applications.**

Topics covered in the program include:

- Safety zones for ground encounters
- Advanced falling techniques
- Limb control techniques and control methods
- Cross trapping and mounting tactics
- Transition for ground positions
- Control and stabilization tactics
- Weapon defense ground defense positions
- Controlling the pace and breathing
- Baton deployment from the ground
- Disarming tactics for blunt instruments
- Escapes & counters from the ground
- Grip and hold techniques
- Weapon retention in and out of the holster
- Integrated use of force options
- Power locks & grips
- Maintaining your DT program

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Basic Water Safety & Survival Tactics

This 2-day (16 hour) agency “Basic” level certification program is designed for agencies to train, establish policies and certify officers in Water Safety & Survival Tactics for law enforcement, corrections, and Marine Division Personnel who are assigned to work around, or in a waterborne environment. This is an Basic course, which is designed specifically to lay the basic foundation for officers assigned to work around a waterborne environment, to conduct a water assessment, water screening of personnel and techniques for water proofing your officers to assist departments in establishing standards for officers assigned to work around a waterborne environments. This course fully addresses all aspects of the use of force continuum while in water conditioned areas. **Learn from experienced instructors with real world experience in field applications.**

Recommended to agencies as a basic screening and assessment for agencies who have officers working in or around any water conditioned areas

Topics covered in the program include:

- Establishing basic water safety standards for officers
- Officer survival tactics for water encounters
- Basic Water Assessment Exercises
- Basic falls into water
- Treading water and breathing control
- Basic water entries from high and low area environments
- Water confidence courses
- Evading Tactics
- Officers rescue drills in a water environment
- Use of Force Options in the water
- Weapon control and deployment in the water
- Introduction to blocking, striking, & grappling techniques in the water

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Duration: 2 Days

Tuition: \$295.00

Special Note: Duty Gear with weighted accessories and Ballistic Vest Provided by Arma Training, Michaels of Oregon, Tactical Design Labs, Blackhawk and 21st Tactical AirSoft

Equipment Required: Appropriate clothing suitable for defensive tactics, instructional clothing and footwear, swimming trunks to be worn under long pants, sock, boots, and shirt. Bring training weapons, change of clothes, towel, sun screen, training impact weapons, groin protection, mouth piece and inert aerosol sprays.

Water Survival Defensive Tactics - Level 1

This 3-day (24 hour) agency “Basic Instructor” level certification program is designed for agencies to train, establish policies and certify departmental Trainers in Water Safety Survival and Control & Arrest techniques for law enforcement, and corrections assigned to work around, or in a waterborne environment. This is an Instructor Level I course, which is designed specifically to lay the basic foundation for officers assigned to work around a waterborne environment, and to assist the department in establishing standards for officers assigned to work around a waterborne environments. This course fully addresses all aspects of the use of force continuum while in water conditioned areas. **Learn from experienced instructors with real world experience in field applications. Pre-requisite for Water Survival Defensive Tactics Instructor**

Topics covered in the program include:

- Establishing water programs for officers
- Officer survival tactics for water encounters
- Movement and balance in a water environment
- Boarding boats and weapon transitions
- Treading water and breathing control
- Falling techniques in the water
- Water proofing for your department
- Evading techniques in the water
- Rescue drills in a water environment
- Arrest & Control Tactics in the water
- Weapon control and deployment in the water
- Blocking, striking, & grappling techniques in the water
- Establish basic training requirements for waterborne officers
- Firearm control and deployment in a waterborne environment
- Integrated use of force options

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Duration: 3 Days

Tuition: \$425.00

Special Note: Duty Gear and Ballistic Vest Provided by Arma Training

Equipment Required: Appropriate clothing suitable for defensive tactics, instructional clothing and footwear, swimming trunks to be worn under long pants, sock, boots, and shirt. Bring training weapons, change of clothes, towel, sun screen, training impact weapons, groin protection, mouth piece and inert aerosol sprays.

Water Survival Defensive Tactics Instructor – Level 2

This 5-day (40 hour) agency “Advanced Instructor Trainer” level II certification program is designed for agencies to train, establish policies and certify departmental Trainers in Water Safety Survival and Control & Arrest techniques for law enforcement, and corrections personnel assigned to work around or in a waterborne environment. This will assist the department in establishing basic and in-service standards for training in waterborne tactics for encounters where the officer is able to either standing and or is unable to stay on the surface of the water during a physical encounter. This is a need for any officer who is assigned to a waterborne environment. **Learn from experienced instructors with real world experience in field applications. This is a pre-requisite for Water Survival Defensive Tactics Instructor-Trainer.**

Topics covered in the program include:

- Firearm control and deployment in a waterborne environment
- Ground and water stabilization tactics
- Establishing standards for training waterborne officers
- Baton drills for waterborne environments
- Designing water proofing levels for individual officers
- Establish firearm training for waterborne officers
- Establish intergraded use of force training for waterborne officers
- Firearm transitions drills
- Establish in-service training requirements for waterborne officers
- Power grips and lock for control
- Integrated use of force options
- Establishing and reviewing policy and procedures
- Pre-screen officer for water units

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Duration: 5 Days

Tuition: \$695.00

Special Note: 75 rounds of ball ammunitions for your own caliber of weapon, and bring your duty issue firearm. Duty Gear and Ballistic Vest Provided by Arma Training

Equipment Required: Appropriate clothing suitable for defensive tactics, instructional clothing and footwear, swimming trunks to be worn under long pants, sock, boots, and shirt. Bring training weapons, change of clothes, towel, sun screen, training impact weapons, groin protection, mouth piece and inert aerosol sprays.

Water Survival Defensive Tactics Instructor-Trainer – Level 3

This 10-day (80 hour) agency “MASTER Instructor Trainer” level III certification program is designed for agencies to develop and train departmental Master Trainers in Water Safety Survival and Control & Arrest techniques for law enforcement, and corrections personnel assigned to work around or in a waterborne environment. This will assist the department in establishing basic, in-service, and advanced standards for training in waterborne environments and tactics for encounters where the officer is able to either standing and or is unable to stay on the surface of the water during a physical encounter. This is a need for any officer who is assigned to a waterborne unit or training in these environments. **Learn from experienced instructors with real world experience in field applications.**

Topics covered in the program include:

- Combining both WSSI Level 1 & 2 performance tasks
- Working with non swimmers
- Establishing pre-screening of officers
- How to safely conduct falls into the water
- Working with non swimmers
- Firearm control and deployment in a waterborne environment
- Establishing standards for training waterborne officers
- Selecting and deploying Baton for waterborne environments
- Designing water proofing levels for individual officers
- Establishing and reviewing policy and procedures

This is a physically demanding course and follows our ground defense format. Learn the same techniques that work either standing or on the ground!

Duration: 10 Days

Tuition: \$1,295.00

Special Note: 75 rounds of ball ammunitions for your own caliber of weapon, and bring your duty issue firearm. Duty Gear and Ballistic Vest Provided by Arma Training

Equipment Required: Appropriate clothing suitable for defensive tactics, instructional clothing and footwear, swimming trunks to be worn under long pants, sock, boots, and shirt. Bring training weapons, change of clothes, towel, sun screen, training impact weapons, groin protection, mouth piece and inert aerosol sprays.

Maritime Operations- Vessel Boat Boarding Tactics

This 3-day (24 hour) agency “Agency Instructor” level certification program is designed for agencies to develop and train departmental officers in Maritime Operations and Vessel Boat Boarding Tactics for law enforcement, and Marine personnel assigned to work around or in a waterborne environments. This will assist the department in establishing basic, in-service, and advanced standards for training in vessel boat boarding tactics for encounters where the officer has to board a boat or enter the deck of a boat. This is a need for any officer who is assigned to a waterborne unit or training in these environments. **You must have successfully completed WSSI Level 1 class to be eligible to attend this program!**

Topics covered in the program include:

- Boat handling tactics for securing other boats
- Working alone and with a partner to safely board and secure a vessel
- Establishing basic non verbal and verbal communications between you and your partner
- How to safely secure and enter a water vessel
- Working with other Marine Agencies
- Firearm control and deployment from Boat to Boat
- Establishing standards for water borne operation procedures
- Selecting and deploying non lethal weapons on water vessels
- Designing sound tactics for boat operations
- Establishing and reviewing policy and procedures
- Intergraded use of force options

Duration: 3 Days

Tuition: \$425.00

Special Note: All training firearms and ammunitions will be provided by 21st Tactical bring your duty issue gear. Duty Gear and Ballistic Vest for water drills are provided by Arma Training Division

Equipment Required: Appropriate clothing suitable for defensive tactics, instructional clothing and footwear, swimming trunks to be worn under long pants, sock, boots, and shirt. Bring training weapons, change of clothes, towel, sun screen, training impact weapons, groin protection, mouth piece and inert aerosol sprays.

Edged Weapons Defense **Systems Instructor**

This three-day (24 hour) Instructor level certification program is developed for agencies desiring to train and certify departmental instructors in the use of techniques and tactics for edged weapon attacks, and to carry a knife as an alternate weapon for a force options where the use of deadly force is imminent. This popular system is designed for law enforcement, corrections, and military teaching the officer effective responses to an edged weapon attack in close quarter environments or when their empty hand control tactics, firearms, or other use of force alternatives are the only forms of self-defense. **Learn from experienced instructors with real world experience in field applications.**

Topics covered in the program include:

- Identify zones of approach
- Dynamics of an edged weapon encounter
- Understanding body mechanics for limb control techniques
- Angles of an edged weapon attack
- Foot movement techniques
- Limb control and disarming
- Ground stabilization techniques
- Stunning and balance displacement tactics
- Carries, draws, and strikes with an edged weapon
- Limb control and disarming tactics
- Cycles of motion for single and multiple subjects
- Dynamic simulation exercises
- In-service refresher points
- Integrated use of force options
- Alternative use of force options
- Laying the verbalization
- Use of force considerations

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Edged Weapons Defense **Systems** **Instructor-Trainer**

This five-day (40 hour) Instructor Trainer level certification program was developed to upgrade agencies desiring to train and certify departmental trainers in the use of techniques and tactics for edged weapon attacks, and to carry a knife as an alternative weapon for a force option where the use of deadly force is imminent. Instruction is based on realistic use and applications of equipment in a use of force situation. This certification is valid for 3 calendar years from successfully completing this course. **Learn from experienced instructors with real world experience in field applications.**

Topics covered in the program include:

- Identify zones of approach
- Dynamics of an edged weapon encounter
- Understanding body mechanics for limb control techniques
- Angles of an edged weapon attack
- Foot movement techniques
- Limb control and disarming
- Ground stabilization techniques
- Stunning and balance displacement tactics
- Carries, draws, and strikes with an edged weapon
- Limb control and disarming tactics
- Cycles of motion for single and multiple subjects
- Dynamic simulation exercises
- In-service refresher points
- Alternative and Integrated use of force options
- Integrated use of force options
- Laying the verbalization
- Use of force considerations

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

“Fight for Life” Officer Survival Seminar

Every officer no matter how young or veteran they will be engage in a physical encounter that may jeopardize their LIFE!

The "FIGHT FOR LIFE!" seminar will focus on just that, perfecting your ability to survive a physical assault on your life when confronted with a combative and violent subject(s). We will address the mental and physical conditioning needed to "WIN" the fight both in the street and in the courtroom.

We will address the “Fit for duty,” issue because we understand that NOT BEING FIT for duty not only affects your life but the other officers around you. The itinerary for this seminar will focus on how to manage short burst of energy using anaerobic conditioning tactics and control that is needed to go the distance when your life is on the line.

- Building Hand and Eye Coordination
- Hand Speed
- Power Development
- Tactical Combinations
- Officer Survival Exercises
- Handgun Drills (Using 21st Tactical AirSoft weapons)
- Mini-Confrontation Drills
- Ground Combat Tactics
- Edged Weapons Defense
- Deployment Options for Edged Weapons
- Firearm Survival Training (What to do if the gun is pointed at you!)
- Much more!

Learn from experienced instructors with real world experience in field applications.

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with duty belt and holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Vehicle Stops & Officer Survival

This 5-day (40 hour) agency Train the Trainer level certification program is designed for agencies to update, train and certify departmental Instructor in vehicle stops and officer survival tactics. This course is designed to enhance the instructor's development in stopping all kinds of vehicles, consisting of but not limited to pedestrians, cars with single and multiple subjects, motorcycles, passenger vans and busses with single and multiple occupants. Enforcing contact cover principals, high risk threats, spontaneous attacks and ambushes. This course will also address ground stabilization tactics, vehicle extractions, spontaneous edged weapons attacks and immediate action to a gunfight. Instruction is based on realistic use and applications of control methods in the use of force situations. For successful completion student will receive an Instructor Trainer certification from Arma Training as a Vehicle Stop & Officer Survival Trainer.

Topics covered in the program include:

- Importance of laying the verbal foundation
- Vehicle Positioning (Day and Night)
- Zones of approach and escape
- Daytime & Nighttime strategies
- Evasion Tactics for vehicle ambushes
- Dynamic empty hand defense tactics
- Intergraded use of force options
- High Profile Rescues (HPR)
- Close quarter and stun tactics inside vehicles
- Ground stabilization tactics
- Responding to unknown threats
- Stopping Special Vehicles
- Documentation and use of force options
- Takedown techniques for single and multiple officer applications
- Special Vehicle Takedowns
- Immediate response to a Gunfight and Edged Weapons Attacks
- Integrated use of force on force options – and much more!

Learn from experienced instructors with real world experience in field applications.

Duration: 5 Days

Tuition: \$695.00

Ammunition: None

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Firearm Survival Instructor “Shot Avoidance Tactics”

This 3-day (24 hours) officer survival program is a series of tactical enhancement seminars designed for agencies to update, train and provide critical life saving information for situations where the officer is out of reach to physically disarm the subject but needs to execute tactics to save either their own life or the lives of others using a handgun or other weapons of opportunity. This course is designed to enhance instructor's development in firearm tactics, unorthodox drawing techniques, and shadowing tactics and advanced movement methods for engaging a subject(s) within 10 feet. Enforcing contact cover principals, high risk threats, spontaneous lethal force encounters and ambushes. This course will also address weapon transition skills, officer rescue tactics and immediate action to a gunfight. Instruction is based on realistic use and applications of control methods in the use of force situations. This class will conduct dry fire drills, training projectiles (Air Soft) simulations, and live fire exercises.

Topics covered in the program include:

- Importance of laying the verbal foundation
- Verbal tactics
- Body Positioning (Day and Night)
- Zones of approach and escape
- Daytime & Nighttime strategies
- Evasion Tactics for Single, Multiple Subject Attacks and Ambushes
- Dynamic empty hand defense tactics
- Intergraded use of force options
- High Profile Rescues (HPR)
- Close Quarter Tactics
- Ground stabilization tactics
- Weapons of Opportunity
- Documentation and use of force options
- Takedown techniques for single and multiple officer applications
- Special Risk Takedowns
- Immediate response to a Gunfight and Edged Weapons Attacks
- Integrated use of force on force options – and much more!

Duration: 3 Days

Tuition: \$425.00

Ammunition: Training weapons and training projectiles supplied by 21st Tactical Air Soft

Equipment Required: Clothing and footwear for range tactics and instruction, with whistle and lanyard. Duty belt with holster issued and back up weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece, eye safety goggles, towel. Change of clothes.

Firearm Survival Instructor Long gun Shot Avoidance Tactics

This 2-day (24 hours) officer survival program is a series of tactical enhancement seminars designed for agencies to update, train and provide critical life saving information for situations where the officer is out of reach to physically disarm the subject but needs to execute tactics to save either their own life or the lives of others using shotgun, carbines or other issued assault rifles or other weapons of opportunity. This course is designed to enhance instructor's development in firearm tactics with long guns, unconventional firing and slinging techniques, and shadowing tactics and advanced movement methods for engaging a subject(s) within 30 feet. Enforcing contact cover principals, high risk threats, spontaneous lethal force encounters and ambushes. This course will also address weapon transition skills, officer rescue tactics and immediate action to a gunfight or high risk rescues. Instruction is based on realistic use and applications of control methods in the use of force situations. This class will conduct dry fire drills, training projectiles (21st Tactical AirSoft) simulations, and live fire exercises. **Pre-requisite is the 3 day Firearm Survival Instructor "Shot Avoidance Tactics".**

Topics covered in the program include:

- Communicating with your Threat - Verbal tactics
- Body Positioning (Day and Night)
- Avenues of approach and escape
- Daytime & Nighttime strategies
- Evasion Tactics for Single, Multiple Subject Attacks and Ambushes
- Intergraded use of force options
- High Profile Rescues (HPR) with long guns
- Advance Sling Defense Tactics
- Ground covering tactics
- Weapons of Opportunity
- Covering techniques for single and multiple threats
- Special Risk Takedowns
- Immediate response to a Gunfight and Edged Weapons Attacks
- Integrated use of force on force options – and much more!

Learn from experienced instructors with real world experience in field applications.

Duration: 2 Days

Tuition: \$325.00

Ammunition: – Training weapons and training projectiles supplied by 21st Tactical AirSoft

Equipment Required: Clothing and footwear for range tactics and instruction, with whistle and lanyard. Duty belt with holster issued and back up weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece, eye safety goggles, towel. Change of clothes.

Dynamic Defense for Tactical Teams

This 5-day (40 hour) Tactical Team certification program is designed for agencies to train and certify department instructors as a “**Tactical Combat Instructor**” for defensive tactics while handling long and short guns, and the strategies needed while operating inside a protective mask. We will address hearing distortion-vision impairment and oxygen deprivation issues and conduct live confrontational exercises. This course is showing field proven real world solutions for real world problems. This is a class EVERY TACTICAL TEAM MEMBER SHOULD ATTEND! **This is a physical demanding class and officer need to be in good physical condition!**

Topics covered in the program include:

- Power Development Building “How to hit with knockdown power”
- Empty Hand Tactics for Close Quarter situations
- Grappling Tactics for the Tactical Operator
- Effective Knees and Kicks with Tactical Gear
- Special protective Mask Screening Drills
- Building hand and eye coordination
- Takedowns for individual and team tactics
- Transition from Weapons to Empty Hands (Avoid the AD!)
- Dynamic deployment of Empty Hand Skills
- Legal and medical concerns for high risk training
- Strategies for working in a chemical environment
- Oxygen Deprivation and Vision Impairment Drills for the Protective Mask
- How to use training Projectiles for high risk weapon training (21st Tactical AirSoft)
- Weapons retention tactics for weapon out of the holster
- Integrated use of force options

Learn from experienced instructors with real world experience in field applications.

Duration: 5 Days

Tuition: \$695.00

Special Note: Bring (15) 12 gauge rounds, (100) sub gun ammunition, and 3 sub gun magazines, (50) primary short gun ammunitions, assigned 37/40 MM Single and or Multiple Shot Launcher.

Equipment Required: Assigned Tactical Duty Gear duty gear to include holster, primary short gun (pistol), primary long gun (Sub, carbine, shotgun), impact weapons, and handcuffs with key. Ballistic Helmet with or without drop shield, person protective equipment, hard and soft body armor, gas mask and ballistic shield if used.

Crowd Management for Line Officers “Soft Squads”

This 5-day (40 hours) agency instructor level certification program is designed to train and certify departmental instructors in Crowd Management for Line Officers for law enforcement agencies. This course is designed to assist agencies in planning and use of Riot Response Squads. This course primarily focuses on the initial phases of small or large disturbances in your jurisdiction, showing the most effective response when using formations, aerosols, and batons. We will address the use of mini teams, different non lethal weapon options, contingency plans, logistics and equipment needed teams and multiple officer control tactics, and protection of departments from costly litigation issues. **This is a physically demanding program!**

Topics covered in the program include:

- First line riot response gear selection
- Squad formations and commands
- Pre-screening selection for personnel
- Movement and unity drills for squads
- How to establish riot response squads
- Riot shield deployment techniques
- Contingency planning and operations
- Multiple officer control techniques
- Snatch and grab teams
- Containment teams & shotgun squads
- The use of the protective mask & deployment
- Aerosol deployment and selection
- Impact weapon deployment and selection
- Intergraded use of force options
- Ground stabilization tactics
- Individual officer responsibilities

Learn from experienced instructors with real world experience in field applications.

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Assigned department duty gear used for responding to riots to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Crowd Management for Line Officers “Hard Squads”

This 5-day (40 hours) agency instructor level certification program is designed to train and certify departmental instructors in Crowd Management for Line Officers for law enforcement agencies. This course is designed to enhance agencies in planning and use of Riot Response Squads. This course primarily focuses on the initial phases of small or large disturbances, showing the most effective response when using formations, aerosols, and batons. We will address the use of mini teams, various non lethal weapon options such as use of chemical munitions, deploying specialty impact munitions, establishing protocol procedures for training, equipment, and munitions lists, and development of contingency plans to protect departments from costly litigation issues. **This is a physically demanding program!**

Topics covered in the program include:

- First line riot response gear selection
- Squad formations and commands
- Pre-screening selection for personnel
- Movement and unity drills for squads
- How to establish riot response squads
- Riot shield deployment techniques
- Contingency planning and operations
- Multiple officer control techniques
- Snatch and grab teams
- Containment teams & shotgun squads
- Protective mask deployment and selection
- Chemical munitions deployment and selection
- Special impact munitions deployment and selection
- Integrated use of force options
- Ground stabilization tactics
- Individual officer responsibilities

Learn from experienced instructors with real world experience in field applications.

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Assigned department duty gear used for responding to riots to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Squad & Teams Leadership Training for Law Enforcement

This 3-day (24 hour) agency instructor level certification program is designed for agencies to train and certify correctional officers as “Squad or Team Leaders” in leading, and commanding Riot Response Personnel and Squad when responding to small or large groups of rioters. This course was designed to instruct leaders in selection of personnel and establishment of standards for these teams and personnel. Focus is on the welfare and moral of their officers and training needed for basic and in-service training, mental conditioning and physical requirements needs to be in a leadership position. We will address and demonstrate the need for protocol procedures for selecting personnel, equipment, and munitions, and various non lethal weapon options. Also address; how to write and issue contingency plans, logistics needed to respond to a disturbance, and protecting departments from costly litigation issues that could arise from these situations.

Topics covered in the program include:

- Conducting gear selection & equipment lists
- Commanding squads and mini teams
- Importance and how to conduct pre-screening tests
- How to move and control personnel
- Establish & maintaining response personnel
- Issuing briefing and warning orders
- Writing and understanding contingency plans
- Managing use of force
- Working with crisis management teams
- Leaderships traits
- Strategies in a contaminated environment
- Evaluating your personnel
- Conducting site surveys
- Threat assessments for force options
- Training review of personnel
- Documentation & medical issues

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Assigned department duty gear used for responding to riots to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Command Staff Training for Law Enforcement

This 3-day (24 hour) Command Staff agency level certification program is designed to unite the communication needed between the line officers, first line supervisors, and the command administration for selection of personnel, equipment, munitions lists, and training needed to respond to riot environments that occur within or outside of a jurisdiction. Focus is on department liability, use of force issues, establishing proper reporting procedures, and training standards needed for this response. We will address and demonstrate the need for a Chain of Command, Emergency Preparedness Officer and Crisis Emergency Committee within the department to help protect departments from costly litigation issues. This is an important need for any Command Staff Personnel.

Topics covered in the program include:

- Importance of selecting equipment lists
- Review of personnel
- Liability in establishing pre-screening tests
- Policies and procedure review
- Failure to train court cases
- Review of use of force and briefings
- Contingency plans & logistics
- Managing your command
- Establishing crisis management teams
- Command responsibilities
- Strategies for your facility
- Evaluating your personnel and facility
- Chemical facts and liability
- Making threat assessments for force options
- Training standards
- Documentation & medical issues

Learn from experienced instructors with real world experience in field applications.

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Assigned department duty gear used for responding to riots to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Delivering Lethal Force During Crowd Management Operations

“Force Management Protection”

This 5-day (40 hours) program is designed for agencies to train and certify departmental I instructors in delivering lethal force during crowd management operations. This course was designed to assist agencies in assessment, management and deployment of deadly force in a Crowd Management Environment. This course primarily focuses on the final phases of small or large disturbances in a jurisdiction, showing the most effective response when using formations when confronting deadly force threats.

Topics covered in the program include:

- Force Management Gear Selection
- Squad formations and Commands
- Pre-Screening Selection for Personnel
- Movement and Unity Drills for Squads
- How to establish Force Management Squads
- Riot Formation Response
- Contingency Planning and Operations
- Multiple Officer Control Techniques
- Mini Team Response to Deadly Force
- Containment Teams & Shotgun Squads
- Protective Mask Deployment and Selection
- Use of Snipers and SWAT Personnel
- Special Impact Munitions Deployment and Selection
- Integrated use of force options
- Use of Force Tactics
- Individual officer responsibilities

Tuition: \$695.00

All weapons and ammunition supplied by 21st Tactical AirSoft

Equipment Required Assigned department duty gear used for responding to riots to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Crowd Management for Supervisors

This 5-day (40 hours) agency level certification program is designed to train and certify departmental personnel in Crowd Management Tactics for Multi-Agency response. This course is designed to assist agencies in planning and use of Civil or Riot Response Squads for rapid and emergency rapid response situations. This course primarily focuses on the initial phases of small or large disturbances in your jurisdiction, showing the most effective responses when using formations, aerosols, batons, riot shields, intergraded non lethal weaponry, and basic tactical command leadership. We will address the use of mini teams, different non lethal weapon options, contingency plans, logistics and equipment needed teams and multiple officer control tactics, and protection of departments from costly litigation issues.

Topics covered in the program include:

- Selecting riot response gear selection
- Squad formations and commands
- Pre-screening selection for personnel
- Aerosol/Impact Weapon deployment and selection
- Ground stabilization tactics
- Riot shield deployment techniques
- Containment teams & shotgun squads
- Chemical munitions deployment and selection
- Managing use of force
- Leaderships traits
- Strategies in contaminated environments
- Threat assessments for force options
- Evaluating High Risk Situation and personnel
- 12 Gauge – 37/40 MM Special impact munitions deployment and selection
- Conducting Debriefings
- Contingency plans & logistics
- Establishing crisis management teams
- Strategies for your department
- Round Table Discussion
- Inspection of Personnel
- Tactical Command Strategies
- Managing Deadly Force Situations

Learn from experienced instructors with real world experience in field applications.

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Assigned department duty gear used for responding to riots to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield, 12 gauge shotgun and 37/40 MM launchers.

Correctional Emergency Response Team Training “CERT”

This 5-day (40 hours) agency instructor level certification program is designed for agencies to train and certify correctional officer as “INSTRUCTORS” in Disturbance Control Tactics for jails and camps, and prisons. This course was designed to enhance the agencies in the selection deployment and maintenance of a Riot Response Squad to increase officer safety and introduce the New Mini-Team concept. **This is a physically demanding program!**

Topics covered in the program include:

- Equipment and gear selection
- The purpose of mini teams
- Pre-screening personnel
- Unity drills for squads formations
- How to establish riot response squads
- Soft and hard shield tactics
- Contingency planning and operations
- Multiple officer control techniques
- Crisis management teams
- Containment teams & support squads
- Tactics for operating in a contaminated environment
- Aerosol munitions selection & deployment
- Baton deployment and selection criteria
- Integrated use of force options
- Ground stabilization tactics
- Documentation & medical issues

Learn from experienced instructors with real world experience in field applications.

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Assigned department duty gear used for responding to emergency situations inside your facility to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Cell Extraction & Control Systems Instructor Course

This 5-day (40 hours) agency instructor level certification program designed for agencies to train and certify departmental instructors in Cell Extraction and Control Systems for corrections. This course is designed to enhance the instructor's development in the use and training of control tactics for single and multiple officer control tactics using anatomically correct techniques, and to protect departments from costly litigation issues that could arise from the use of physical force during an encounter. This course fully addresses all aspects of physical restraints, and introduces "Pad Subduing Techniques and Tactics." Instruction is based on realistic use and applications of control methods in the use of force situations. **This is a physically demanding program!**

Topics covered in the program include:

- Equipment and gear selection
- The purpose of force cell moves
- Pre-screening personnel
- Entry drills for 3 to 5 person teams
- How to establish cell extraction teams
- Use of shield tactics
- Contingency planning and operations
- Use of restraints & control devices
- Importance crisis management teams
- Support personnel and squads
- Purpose and use of the protective mask
- Selection & deployment of chemicals
- Baton deployment and selection criteria
- Integrated use of force options
- Ground stabilization tactics
- Documentation & medical issues

Learn from experienced instructors with real world experience in field applications.

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Assigned department duty gear used for responding to emergency situations inside your facility to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Special Operation Response Team Training “SORT”

This 5-day (40 hours) agency instructor level certification program is designed for agencies to train and certify correctional officer as “INSTRUCTORS” in Special Operation Response Team tactics for jails, camps, and prisons. This course is designed to enhance the agencies in the use of how to select, deploy and maintain a SORT Teams and Squads especially for correctional environments, and primarily focuses on the high level situations within these facilities, such as officer rescue, use and deployment of specialty impact munitions, regaining the facility, dayroom, cell pod, recreational yards and other areas within the correctional facility when the use of disturbance control teams have been ineffective, and a higher level of force is needed. We will address the use of different less lethal options, contingency plans, logistics and equipment needed to help protect departments from costly litigation issues. **This is a physically demanding program!**

Topics covered in the program include:

- Pre-screening personnel & evaluations
- Team drills and stacking
- Equipment and gear selection
- Establishing a munitions list & testing
- How to establish a sort team
- Aerosol munitions selection & deployment
- Contingency planning and operations
- Establishing sort standards
- Interacting with riot teams
- Firearm selecting and establishing criteria
- Tactics for operating in a contaminated environment
- Specialty impact munitions deployment
- Chemical munitions deployment
- Active countermeasure for weapon control
- Integrated use of force options
- Ground stabilization tactics
- Documentation & medical issues

Delivering Lethal Force In Correctional Management Operations “Force Management Protection”

This 5-day (40 hours) program is designed for agencies to train and certify departmental I instructors in delivering lethal force during high risk correctional management operations. This course was designed to assist agencies in assessment, management and deployment of deadly force in a Correctional Institution. This course primarily focuses on the final phases of small or large disturbances in a jurisdiction, showing the most effective response when using formations when confronting deadly force threats. **This is a physically demanding program!**

Topics covered in the program include:

- Force Management Gear Selection
- Squad formations and Commands
- Pre-Screening Selection for Personnel
- Movement and Unity Drills for Squads
- How to establish Force Management Squads
- Riot Formation Response
- Contingency Planning and Operations
- Multiple Officer Control Techniques
- Mini Team Response to Deadly Force
- Containment Teams & Shotgun Squads
- Protective Mask Deployment and Selection
- Use of Snipers and SRT Personnel
- Special Impact Munitions Deployment and Selection
- Integrated use of force options
- Use of Force Tactics
- Individual officer responsibilities

Ammunitions

Needed: None all weapons and round provided by 21st Tactical AirSoft

Equipment Required: Assigned department duty gear used for responding to emergency situations inside your facility to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Crowd Management for First Line Supervisors

This 5-day (40 hours) agency level certification program is designed to train and certify correctional personnel in Crowd Management Tactics for small or large scale disturbances within their institutions for a Multi-Agency response. This course is designed to assist agencies in planning and use of Civil or Riot Response Squads for rapid and emergency rapid response situations. This course primarily focuses on the initial phases of small or large disturbances anywhere inside or outside your facility, showing the most effective responses when using formations, aerosols, batons, riot shields, intergraded non lethal weaponry, and tactical command leadership. We will address the use of mini teams, different non lethal weapon options, contingency plans, logistics and equipment needed teams and multiple officer control tactics, and protection of departments from costly litigation issues. This course combines both the Squad and Team Leaders program and the Command Staff Program into a 5 day format. **This is a physically demanding program!**

Topics covered in the program include:

- Selecting riot response gear selection
- Squad formations and commands
- Pre-screening selection for personnel
- Aerosol/Impact Weapon deployment and selection
- Riot shield deployment techniques
- Containment teams & shotgun squads
- Chemical munitions deployment and selection
- 12 Gauge – 37/40 MM Special impact munitions deployment and selection
- Managing use of force
- Leaderships traits
- Threat assessments for force options
- Evaluating High Risk Situation and personnel
- Conducting Debriefings
- Contingency plans & logistics
- Establishing crisis management teams
- Strategies for your department
- Round Table Discussion
- Inspection of Personnel
- Managing Deadly Force Situations

Duration: 5 Days

Tuition: \$695.00

Equipment Required: Assigned department duty gear used for responding to emergency situations inside your facility to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield. 12 gauge shotgun and 37/40 MM launchers.

Squad & Teams Leadership Training for Corrections

This 3-day (24 hour) agency instructor level certification program is designed for agencies to train and certify correctional officers as a “Squad or Team Leaders” in leading, and commanding Disturbance Control personnel and Squad inside jails, and camps, and prisons. This course is designed to instruct leaders in selection of personnel and establishing standards for these teams and personnel. Focuses are on the welfare, training, mental conditioning and physical requirements needed in a leadership position. We will address and demonstrate the need for protocol procedures for selecting personnel, equipment, and munitions, and the various non lethal weapon options available within the industry today. Also address how to write and issue contingency plan; logistics needed to response to a disturbance that help protect departments from costly litigation issues. **This is a physically demanding program!**

Topics covered in the program include:

- Conducting gear selection & equipment lists
- Commanding squads and mini teams
- Importance and how to conduct pre-screening tests
- How to move and control personnel
- Establish & maintaining response personnel
- Issuing briefing and warning orders
- Writing and understanding contingency plans
- Managing use of force
- Working with crisis management teams
- Leaderships traits
- Strategies in a contaminated environment
- Evaluating your personnel
- Conducting site surveys
- Threat assessments for force options
- Training review of personnel
- Documentation & medical issues

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Assigned department duty gear used for responding to emergency situations inside your facility to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Command Staff Training for Corrections

This 3-day (24 hour) Command Staff agency level certification program is designed to unite the communication needed between the line officers, first line supervisors, and the command administration for the selection of personnel, equipment, munitions lists, and training needed to respond as a department to these riot environments that occur within a jail, camp, or prison facility. This course is designed to instruct the Command in the proper protocol for selecting of personnel and the importance of establishing department standards for their personnel and squads.

Topics covered in the program include:

- Importance of selecting equipment lists
- Review of personnel
- Liability in establishing pre-screening tests
- Policies and procedure review
- Failure to train court cases
- Review of use of force and briefings
- Contingency plans & logistics
- Managing your command
- Establishing crisis management teams
- Command responsibilities
- Strategies for your facility
- Evaluating your personnel and facility
- Chemical facts and liability
- Making threat assessments for force options
- Training standards
- Documentation & medical issues

Learn from experienced instructors with real world experience in field applications.

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Assigned department duty gear used for responding to emergency situations inside your facility to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Non-Lethal Weapons Instructor

This 5-day (40 hours) program is designed for agencies to train and certify departmental instructors in Non-Lethal Technology for officers in law enforcement or correctional agencies. This course was designed to enhance the agencies in the manufacture's use, and tactical applications of all air launched weapons, chemical aerosol projectors, tactical chemical munitions, specialty impact munitions, and Distractionary devices. **This is a certification on ANY non lethal weapons your agency carries. Learn from experienced instructors with real world experience in field applications.**

Topics covered in the program include:

- How to select aerosols
- Different spray patterns
- Protective masks
- Air launchers deployment
- 12 gauge chemical munitions & specialty impact munitions
- 37/40 mm chemical munitions & specialty impact munitions
- Indoor & outdoor chemical munitions deployment
- Establishing an effective training program
- Single and team deployment
- History of Distractionary Devices
- Integrated use of force options
- Establishing qualification courses
- Policies and procedures

Dave Young is recognized as one of the nation's leading experts in the use, selection and deployment of non lethal weapons and has hosted the Police Technology Show for National Geographic.

Duration: 5 Days

Tuition: \$795.00

If you bring your own munitions your class tuition will be \$695.00 – (Request Munitions List)

Specialty Note: Chemicals and Specialty Impact Munitions are supplied by Arma Training and ALS, and Specialty Impact Munitions Trainers by Air Soft

Equipment Required: Assigned department duty gear used for responding to deploying Non Lethal Weapons to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield, 12 gauge shotgun, 37/40 MM launcher.

Non-Lethal Weapons Master Instructor

This 10-day (80 hours) program is designed for agencies to train and certify departmental Master Trainer in Non-Lethal Technology for officers in law enforcement or correctional agencies. This course was designed to enhance the agencies in the manufacture's use, and tactical applications of the Air Launchers, Chemical Aerosol Projectors, and Chemical Munitions, Specialty Impact Munitions, and Distractionary devices. **This certification is valid for 5 years!**

Topics covered in the program include:

- How to select aerosols
- Different spray patterns
- Protective masks
- Air launchers deployment
- 12 gauge chemical munitions & specialty impact munitions
- 37/40 mm chemical munitions & specialty impact munitions
- Indoor & outdoor chemical munitions deployment
- Establishing an effective training program
- Single and team deployment
- History of Distractionary Devices
- Integrated use of force options
- Establishing qualification courses
- Policies and procedures

Dave Young is recognized as one of the nation's leading experts in the use, selection and deployment of non lethal weapons and has hosted the Police Technology Show for National Geographic.

Duration: 10 Days

Tuition: \$1,495.00

If you bring your own munitions your class tuition will be \$1,195.00
(Request Munitions List)

Specialty Note: Chemicals and Specialty Impact Munitions are supplied by Arma Training and ALS, and Specialty Impact Munitions Trainers by Air Soft

Equipment Required: Assigned department duty gear used for responding to deploying Non Lethal Weapons to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield, 12 gauge shotgun, 37/40 MM launcher.

Tactical Instructor Non-Lethal Weapons

This 5-day (40 hour) Non Lethal Weapon "TACTICAL" Instructor certification program is designed for agencies to train and certify departmental instructors as a Tactics Instructors for Non Lethal Weapons by defining their roles, responsibilities, and the strategies used with these weapons.

Topics covered in the program include:

- Identifying your cover teams
- Launching chemical agents
- Contingency planning and operations for chemical agent
- Special qualification for specialty impact munitions
- Non lethal weapon transitions to deadly force
- Legal and medical concerns for non lethal munitions
- Integrated use of force options
- Formulations and chemical compositions
- Strategies for using non lethal shotguns
- Decontamination of chemical (indoor and outdoor)
- Patrol deployment of non lethal weapons
- Using two person launching teams
- Strategies for deployment of chemical munitions
- Tactical deployment of non lethal weapons and devices
- How to use marking rounds for non lethal weapon training
- Weapons retention tactics for non lethal weapons

Dave Young is recognized as one of the nation's leading experts in the use, selection and deployment of non lethal weapons and has hosted the Police Technology Show for National Geographic.

Duration: 5 Days

Tuition: \$695.00

Special Note: Bring (30) 12 gauge, and 20 37/40 MM Specialty Impact Munitions rounds and assigned duty launcher, and Specialty Impact Munitions Trainers by Air Soft

Equipment Required: Assigned department duty gear used for responding to deploying Non Lethal Weapons to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield, 12 gauge shotgun, 37/40 MM launcher.

Basic Protective Mask Instructor (PMI™)

This 1-day (10 hour) agency instructor level certification program is designed for agencies to train and certify officers as “INSTRUCTORS” in **ANY** Protective Mask worn by the officer, and train them in tactics for officers who have to work in contaminated environments. This course is designed to enhance the agencies knowledge in the use of how to train in, select, inspect, clean, don, clear and seal protective masks. We will focus on how important it is to operate in a protective mask in high level situations teaching the officers how to safely simulate various visual conditions, and oxygen deprivation concerns an officer would be placed in when wearing any protective mask. We will address how to conduct protective mask drills and acclimatization exercises needed to maintain proficiency while wearing any protective mask. The protective mask is the most important piece of equipment you will have in a contaminated environment. **Learn from the most experienced instructors in real world applications.**

Topics covered in the program include:

- Pre-screening personnel & evaluations
- Purpose of Protective Masks
- How to select the right Protective mask
- Importance of fit tests
- Addressing medical concerns
- Respiratory issues
- Cleaning and inspection of the Protective Mask
- Donning, Clearing and Sealing Tactics
- Types of Filters and exchange drills
- Protective Mask and their carriers
- How the Protective Mask interacts with other Equipment
- Vision impairment drills
- Tactics for operating in a contaminated environment
- Weapons Handling when wearing a protective Mask
- Breathing and focus drills
- Active countermeasures issues when wearing a Protective Mask
- Acclimatization drills and exercises
- NIOSH and Documentation

**Must have a medical
clearance to attend
and be fit for duty!**

Duration: 1 Day

Tuition: \$150.00

Equipment Required: Assigned duty gear to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Protective Mask Instructor (MPMI™)

This 3-day (24 hour) agency Master Instructor level certification program is designed for agencies to train and certify officers as “Instructor Trainers” in Protective Masks, and train them in tactics for officers who have to work in contaminated environments. This course is designed to enhance the agencies knowledge in the use of how to train in, select, inspect, clean, don, clear and seal protective masks. We will focus on how to train your officers to overcome fears and other phobias associated with wearing protective masks and how to safely operate in a protective mask in high level situations teaching the officers how to safely simulate various visual conditions and oxygen deprivation concerns an officer would be placed in when wearing any protective mask. We will address how to conduct protective mask drills for handling firearms and other weapons and acclimatization exercises needed to maintain proficiency while wearing any protective mask. The protective mask is the most important piece of equipment you will have in a contaminated environment. **Learn from the most experienced instructors in real world applications.**

Topics covered in the program include:

- Pre-screening personnel & evaluations
- Purpose of Protective Masks
- How to select the right Protective mask
- Importance of fit tests
- Addressing medical concerns
- Respiratory issues
- Cleaning and inspection of the Protective Mask
- Donning, Clearing and Sealing Tactics
- Types of Filters and exchange drills
- Protective Mask and their carriers
- How the Protective Mask interacts with other Equipment
- Vision impairment drills
- Tactics for operating in a contaminated environment
- Weapons Handling when wearing a protective Mask
- Breathing and focus drills
- Active countermeasures issues when wearing a Protective Mask
- Acclimatization drills and exercises
- NIOSH and Documentation

Must have a medical clearance to attend and be fit for duty!

Duration: 3 Day

Tuition: \$425.00

Equipment Required: Assigned duty gear to include holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield.

Chemical Aerosol Projectiles

CAP™

Basic Instructor Course

This one-day (10 hour) Agency Basic Instructor level certification program is designed for agencies to train and certify departmental Instructors in a complete use of force continuum program focusing on, handling and documentation of the use of Chemical Aerosols, to include medical issues and legal liability specifically designed for law enforcement, and corrections. It introduces new partner drills for the safe and effective deployment of these devices that are compatible with any chemical aerosol deployment system.

Topics covered in the program include:

- Oleoresin capsicum formulations / carriers
- Projectors / propellants / delivery systems
- Effectiveness / safety / liability factors
- Criteria for selection
- Operational guidelines / practical exercises
- Decontamination / first aid
- Officer survival techniques
- Criminal and civil liabilities
- Sample policy and procedures
- Instructor development
- Integrated use of force options
- Deployment methods
- Tactics for surviving an OC attack
- Contamination exercises

Dave Young is recognized as one of the nation's leading experts in the use, selection and deployment of non lethal weapons and has hosted the Police Technology Show for National Geographic. This is one of the longest running OC programs in the country!

Duration: 1 Day

Tuition: \$150.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Master Impact Weapons Instructor Course

This 3-day (24 hour) Agency TRAIN THE TRAINER certification program was designed for agencies to train and certify departmental Instructor Trainers for expandable batons focusing on the deploying, and handling expandable batons designed specifically for law enforcement, and corrections. This program addresses and focuses on power development combining Empty Hand Defense and Transitions to Impact Weapons, Ground Stabilization Tactics, and Handcuffing with the Impact Weapon, Escorts and Restraint Tactics for deploying an Impact Weapon, introducing new partner drills for the safe and effective deployment of impact weapons. This course fully addresses all aspects of using Impact Weapons. This certification is valid for three calendar years from successfully completing this course.

Topics covered in this program include:

- History of Impact Weapons
- Grips / Draws / Striking Methods
- Blocks / Restraints / Escorts
- Effectiveness / Safety / Liability Factors
- Criteria for the Selection of Impact Weapons
- Operational Guidelines / Practical Exercises
- Primary / Secondary / Environmental Injuries
- Officer Survival Techniques
- Criminal and Civil Liabilities
- Policy and Procedures
- Instructor Development
- Intergraded Use of Force Options
- Deployment Methods
- Transitional Tactics for Impact Weapons
- Realistic Drills and Practical Exercises

Duration: 3 Days

Tuition: \$425.00

Ammunition: None

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Master Chemical Aerosol Projector Course

This 3-day (24 hour) agency Master Instructor level certification program is designed to train and certify departmental Instructor Trainers in a complete use of force continuum program focusing on deployment, handling and survival of a chemical attack by means of an aerosol designed specifically for law enforcement, and corrections. This course was designed to enhance the instructor trainer's development in the use and training of aerosols tactics, and to protect departments from costly litigation issues that could arise from these types of encounters.

Topics covered in the program include:

- Oleoresin capsicum formulations / carriers
- Projectors / propellants / delivery systems
- Effectiveness / safety / liability factors
- Criteria for selection
- Operational guidelines / practical exercises
- Decontamination / first aid
- Officer survival techniques
- Criminal and civil liabilities
- Sample policy and procedures
- Instructor development
- Integrated use of force options
- Deployment methods
- Tactics for surviving an OC attack
- Contamination exercises

Dave Young is recognized as one of the nation's leading experts in the use, selection and deployment of non lethal weapons and has hosted the Police Technology Show for National Geographic. This is one of the longest running OC programs in the country!

Duration: 3 Days

Tuition: \$425.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

Dynamic Breaching Instructor

This 3-day (24 hours) program is designed for agencies to train and certify departmental instructors in the use of ballistic and mechanical tools designed for forced entry and discuss breaching tactics and technology for officers in law enforcement or correctional agencies. This course was designed to enhance the agencies in the manufacture's use, and tactical applications of the 12 gauge ballistic breaching rounds and various mechanical tools designed specifically for conducting these forced entries. **This is not an explosive breaching school!**

Topics covered in the program include:

- Selecting a Breaching Team
- Ballistic vs. Mechanical Entry tools
- Gathering Intelligence for Entry
- How to select forced entry tools
- Different angles and penetration tactics
- Doorknobs and Deadbolts
- 12 Gauge breaching Tactics (Close & Extended Range)
- Preparing a breaching Kit
- Conventional and Unconventional Breaching tactics
- Establishing an effective breaching program
- Single and team deployment
- Integrated use of force options
- Establishing qualification & certifications
- Policies and procedures

Dave Young is recognized as one of the nation's leading experts in the use, selection and deployment of non lethal weapons and has hosted the Police Technology Show for National Geographic.

Duration: 3 Days

Tuition: \$425.00

Specialty Note: Mechanical Entry tools by Dynamic Entry will be used are Breaching rounds will be supplied by International Cartridge and training weapons by 21st Tactical Air Soft

Equipment Required: Assigned department duty gear used for responding to deploying Non Lethal Weapons to include ballistic shield, holster, pistol, impact weapon, handcuffs with key. Helmet with drop shield, protective equipment, body armor, gas mask and riot shield, 12 gauge shotgun.

RRB Basic User Course

This one-day (10 hour) Basic User level certification program is designed for agencies to train and certify departmental personnel in a complete use of force continuum program focusing on, handling and documentation of the Rapid Rotation Baton, to include officer survival tactics, weapons transition, use of force issues, medical issues and legal liability specifically designed for law enforcement, and corrections. Upon successful completion you will receive a certification that will allow you to carry and deploy the RRB! Valid for one year upon completion.

Topics covered in the program include:

- Design Purpose of the RRB
- History of Batons in law enforcement and correction
- Effectiveness / safety / liability factors
- Criteria for selection
- Operational guidelines / practical exercises
- Drawing and Deploying the RRB
- Blocking and Striking Techniques with the RRB
- Restraints with the RRB
- Officer survival techniques
- Criminal and civil liabilities
- Sample policy and procedures
- Integrated use of force options
- Deployment methods
- Confrontational Simulations

Learn from experienced instructors with real world experience in field applications.

Duration: 1 Day

Pre-Requisite- None

Tuition: \$175.00 – This includes 1 RRB duel retention holster and RRB Baton of your choice)

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

RRB Basic Instructor Course

This one-day (10 hour) Basic Agency Level Instructor certification program is designed for agencies to train and certify departmental personnel as Basic Instructors in a complete use of force continuum program focusing on handling and documentation of the Rapid Rotation Baton, to include instructor development concepts, evaluating students, conducting drills for

safe scenario testing, officer survival tactics, RRB transition drills, use of force issues, medical issues and legal liability specifically designed for law enforcement, and corrections. Upon successful completion you will receive a certification that will allow you to certify others to carry and deploy the RRB! Valid for three years upon completion.

Pre-Requisite- Must have attended the RRB Basic Use Course or another baton Instructor certification

Topics covered in the program include:

- Design Purpose of the RRB
- History of Batons in law enforcement and correction
- Effectiveness / safety / liability factors
- Criteria for selection for Impact Weapons
- Operational guidelines / practical exercises
- Drawing and Deploying the RRB
- Blocking and Striking Techniques with the RRB
- Restraints with the RRB
- Officer survival tactics
- Criminal and civil liabilities
- How to evaluate your students
- Instructor Development
- How to conduct safe scenarios
- Sample policy and procedures
- Integrated use of force options
- Deployment methods
- Power Development
- Confrontational Scenarios

Learn from experienced instructors with real world experience in field applications.

Duration: 1 Day

Tuition: \$175.00 – This includes 1 RRB duel retention holster and RRB Baton of your choice)

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

RRB Combat Instructor Course

This one-day (10 hour) Basic Agency Level Instructor certification program is designed for agencies to train and certify departmental personnel as RRB Combat Instructors for using the RRB. This course will directly address the dynamic deployment of the RRB from escaping from grips and grabs, chokes and other empty hand restraints you will find yourself in during physical encounters. In addition you will be trained in the drills needed to maintain your survival level of proficiency with using the RRB. Regardless of your environment this course will save your life! Upon successful completion you will receive a certification that will allow you to certify others in our RRB Combat Instructor tactics!

Pre-Requisite- Must have attended the RRB Basic Use Course or another baton Instructor certification

Topics covered in the program include:

- Various fighting positions with the RRB
- Escapes from grips, grabs and body holds using the RRB
- Ground Escapes with the RRB
- Edged Weapons Defense with the RRB
- Dynamic Simulation exercises with the RRB
- Tactical Combinations & Fighting Strategies
- Ground Stabilization Tactics
- Handling Multiple Attackers
- Officer survival techniques
- Terminology and Semantics
- How to evaluate your students
- Personal Development
- How to survive close quarters encounters with the RRB
- Integrated use of force options
- Regaining the position of advantage with the RRB

Learn from experienced instructors with real world experience in field applications.

Duration: 1 Day

Tuition: \$150.00

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.

RRB Master Instructor Course

This five-day (40 hour) Master Agency Level Instructor Trainer certification program is designed for agencies to train and certify departmental personnel as Instructor Trainers in a complete use of force continuum program focusing on deployment, and handling of the Rapid Rotation Baton. This will combine the RRB Basic Instructor, and RRB Combat instructor certifications. We will address instructor development issues, evaluating students, conducting bag drills for safe training environments, scenario testing, officer survival tactics, RRB transition drills, use of force issues, medical issues and legal liability specifically designed for law enforcement, and corrections. Upon successful completion you will receive an RRB Mater Instructor certification that will allow you to certify others to carry, deploy, and Instruct the RRB! Valid for four-years upon completion.

Pre-Requisite- Must have attended the RRB Basic Use Course or another baton Instructor certification

Topics covered in the program include:

- Purpose developing the RRB
- Effectiveness / Safety / Liability factors
- Criteria for selection for Impact Weapons
- Operational guidelines / practical exercises
- Drawing and Deploying the RRB
- Blocking and Striking Techniques with the RRB
- Restraints with the RRB
- Officer survival tactics
- Criminal and civil liabilities
- How to evaluate your students
- Instructor Development
- How to conduct safe scenarios
- Sample policy and procedures
- Integrated use of force options
- Deployment methods
- Power Development
- Confrontational Scenarios

Learn from experienced instructors with real world experience in field applications.

Duration: 5-Days

Tuition: \$695.00 – This includes 1 RRB duel retention holster and RRB Baton of your choice, RRB Resource Kit, RRB Master Instructor Shirt)

Equipment Required: Clothing and footwear for defensive tactics instruction, with whistle and lanyard. Duty belt with holster, training weapons, inert aerosols, body armor, impact weapon, protective equipment, groin protection and mouthpiece.
