CHEMICAL AEROSOL PROJECTORS INSTRUCTOR – BLENDED - ICP

This BLENDED 1-day (12 hours) program is delivered using 8 hours of on line coursework, consisting of watching a short video, reviewing a few power point slides, answering a series of chapter quizzes, completing a final written examination and then attending a 4 hours of intense series of practical, role playing exercises and instructor development skills for delivering this program into your agency with full online access and support for every officer in your agency. I developed this program for agencies to train and certify departmental instructors in Chemical Aerosol Projectors for their agencies. This course was designed to enhance the agencies in the manufacture's use, and tactical applications of deploying chemical aerosol projectors using small issues units MK3-4, High Volume Aerosols MK 9, Large Riot Extinguishers MK 46 and aerosol grenades. We will cover tactical applications for Patrol, SWAT and Crowd Management on the line for riot situations. **This training will address every chemical aerosol protector currently used on the market today from Aerko, SABRE, Guardian, ALS Technology, and Combined Tactical Systems.**

Topics covered in the program include:

- Oleoresin capsicum formulations / carriers
- Projectors / propellants / delivery systems
- Effectiveness / safety / liability factors
- Criteria for selection
- Operational guidelines / practical exercises
- Decontamination / first aid
- Officer survival techniques
- Criminal and civil liabilities
- Sample policy and procedures
- Instructor development
- Integrated use of force options
- Deployment methods
- Tactics for surviving an OC attack
- Contamination exercises

Dave Young is recognized as one of the nation's leading experts in the use, selection and deployment of non-lethal weapons and has hosted the Police Technology Show for National Geographic. Learn field proven applications!

Duration: 1 Day

Tuition: \$199.00
